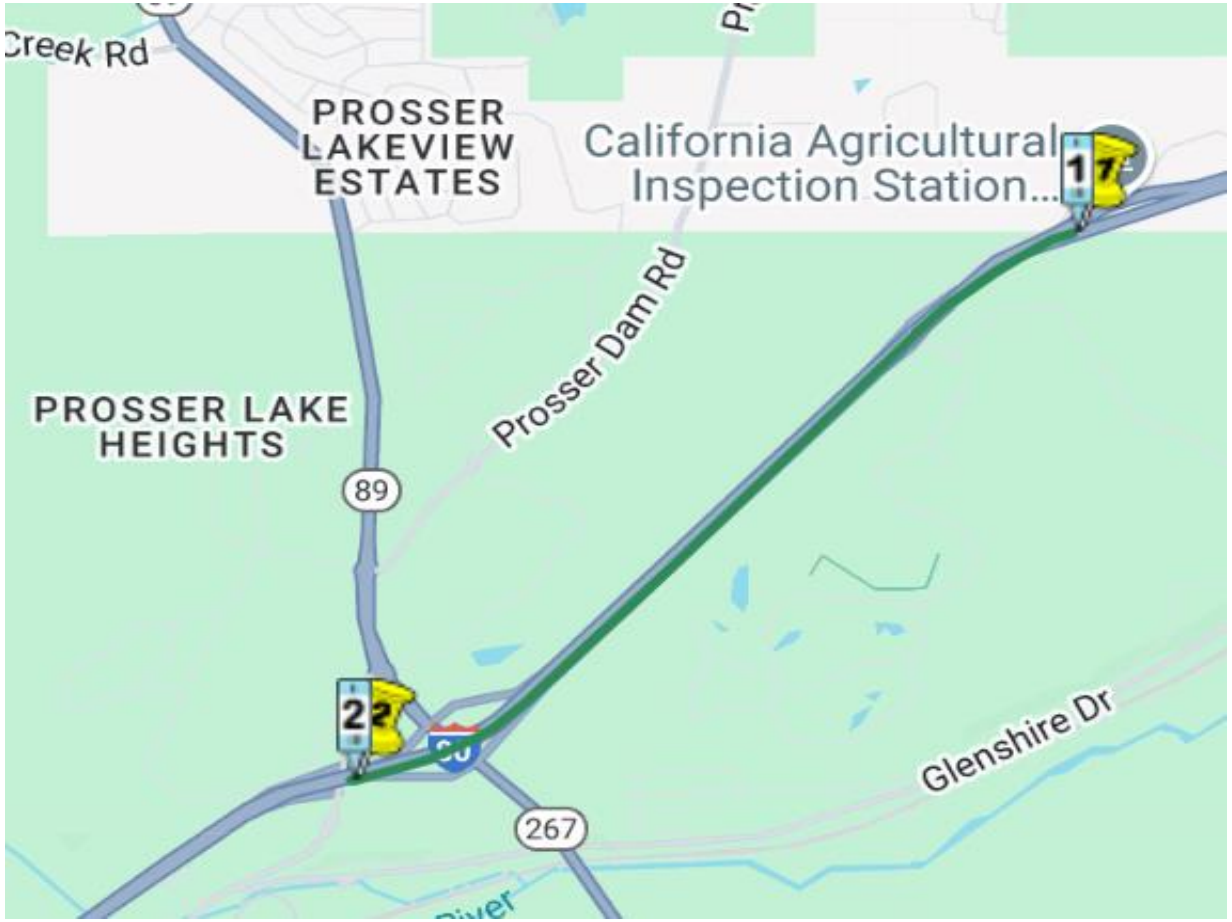
CALTRANS NORTH LAKE TAHOE PROJECTS 2025

John O’Connell

District 3

Public Information Office

Westbound Interstate 80
Restriping Project



On Westbound Interstate 80 between the Agricultural Inspection Station and the State Route 267/89 interchange

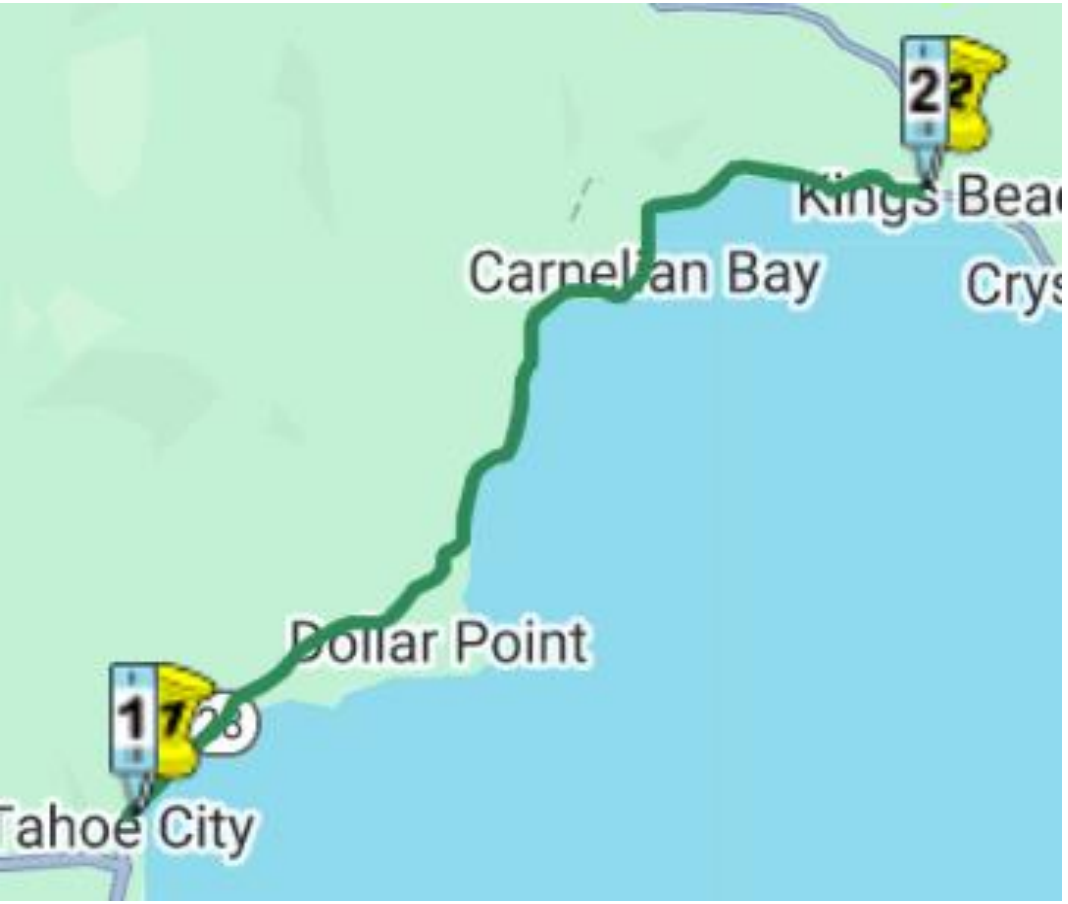
May - July

This project will refresh striping on the roadway which has been worn off due to weather, chains, and heavy truck traffic

Various lane closures with potential delays up to 20 minutes

State Route 28

Middle Mile Broadband Network Project



On State Route 28 between Tahoe City and State Route 267 junction in Kings Beach

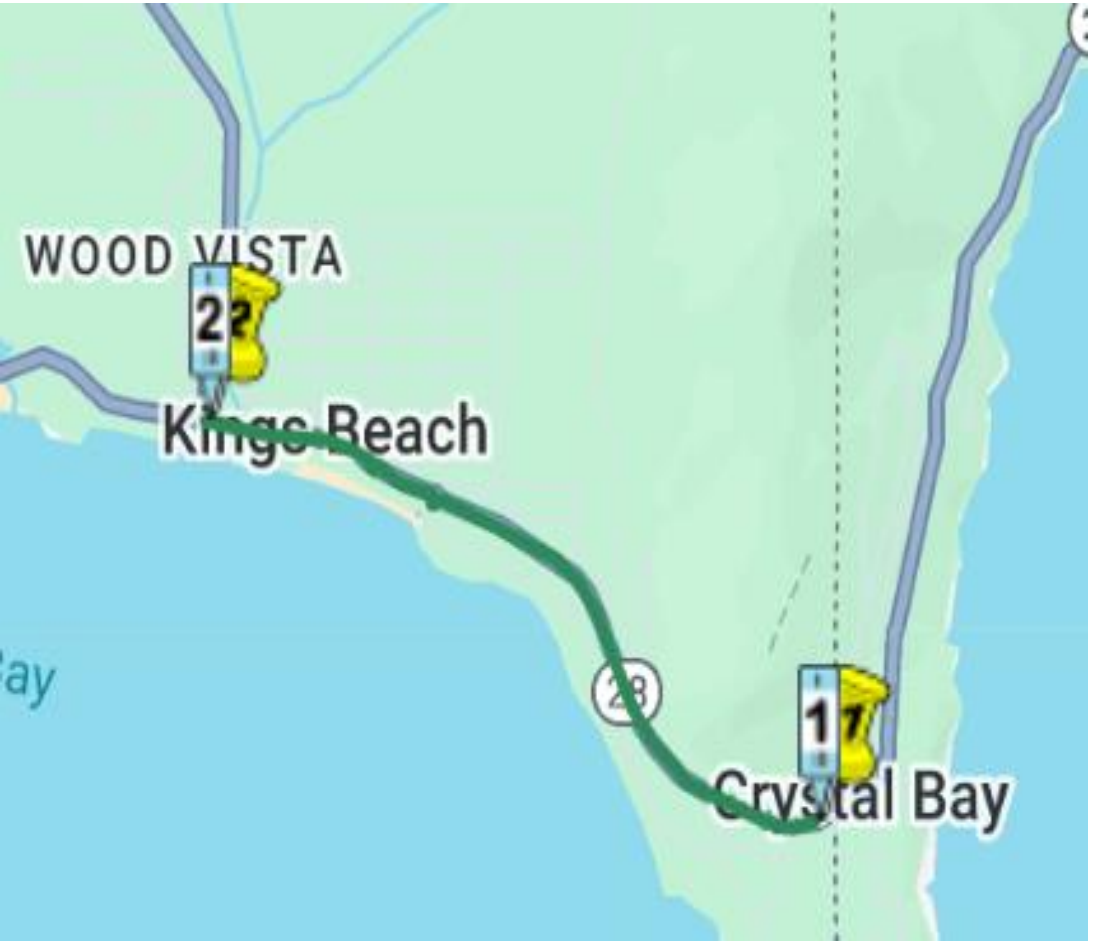
April (weather permitting) – August

Contractor - Teichert Construction

This project is a continuation of last season. About 50% complete, working eastbound towards Kings Beach.

One-way traffic control at multiple locations with delays up to 30 minutes

State Route 28
Middle Mile Broadband Network Project



On State Route 28 between the state line and State Route 267 junction in Kings Beach

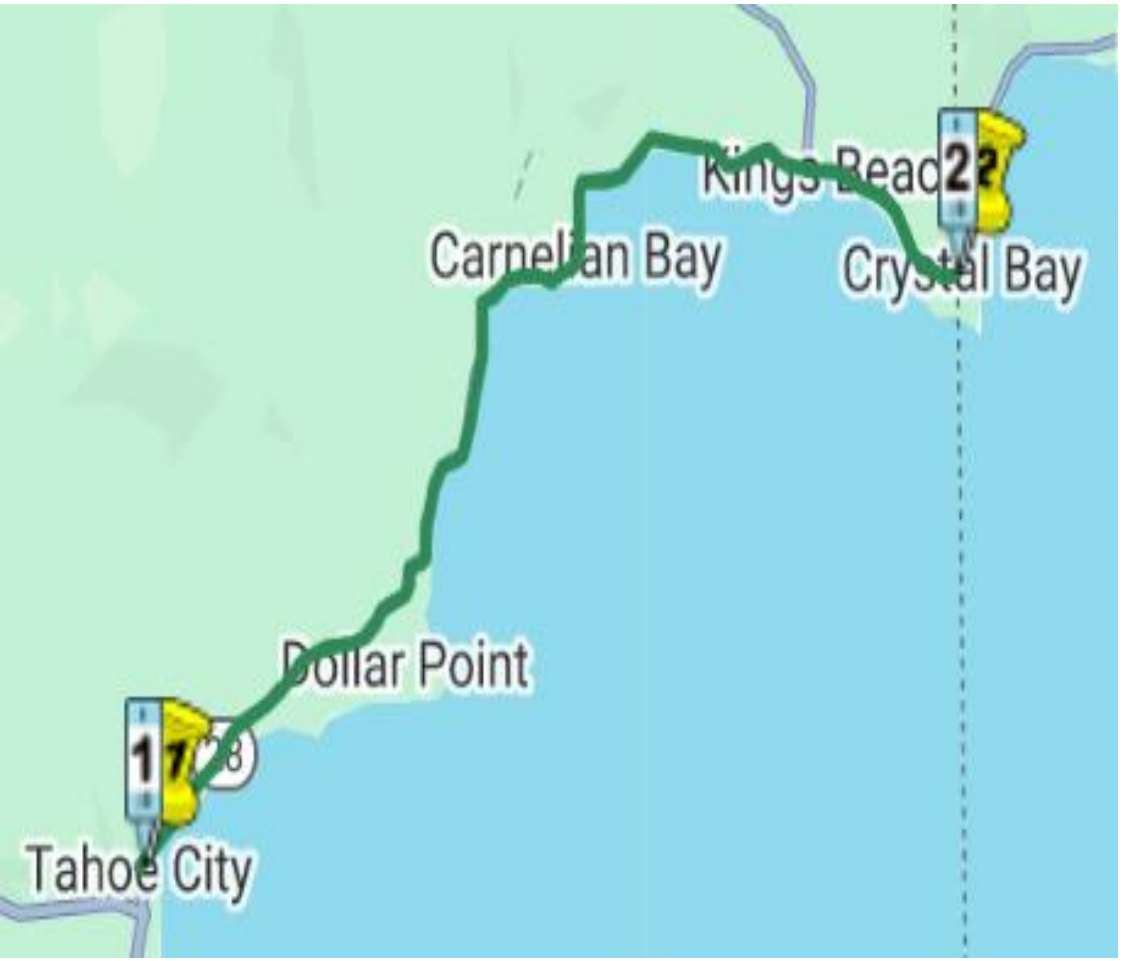
Contractor - Arcadian

May (weather permitting) - August

This project will complete the broadband installation from Tahoe City to the state line

One-way traffic control at multiple locations with delays up to 30 minutes

State Route 28
Pavement Rehabilitation Project



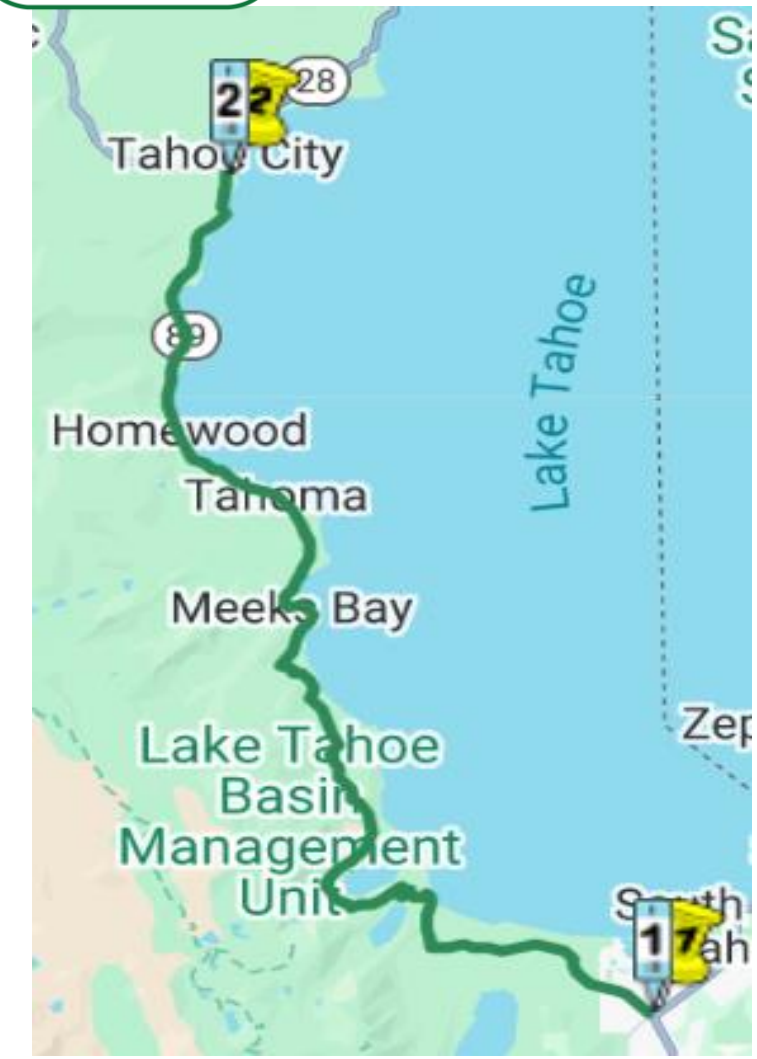
On State Route 28 between Tahoe City and the Nevada state line

May (weather permitting) - September

This project will completely repave the highway, starting with full “dig-outs” in Tahoe City and then move eastbound through the summer. Will follow the broadband project

One-way traffic control at multiple locations with delays up to 30 minutes

State Route 89
Middle Mile Broadband Network Project



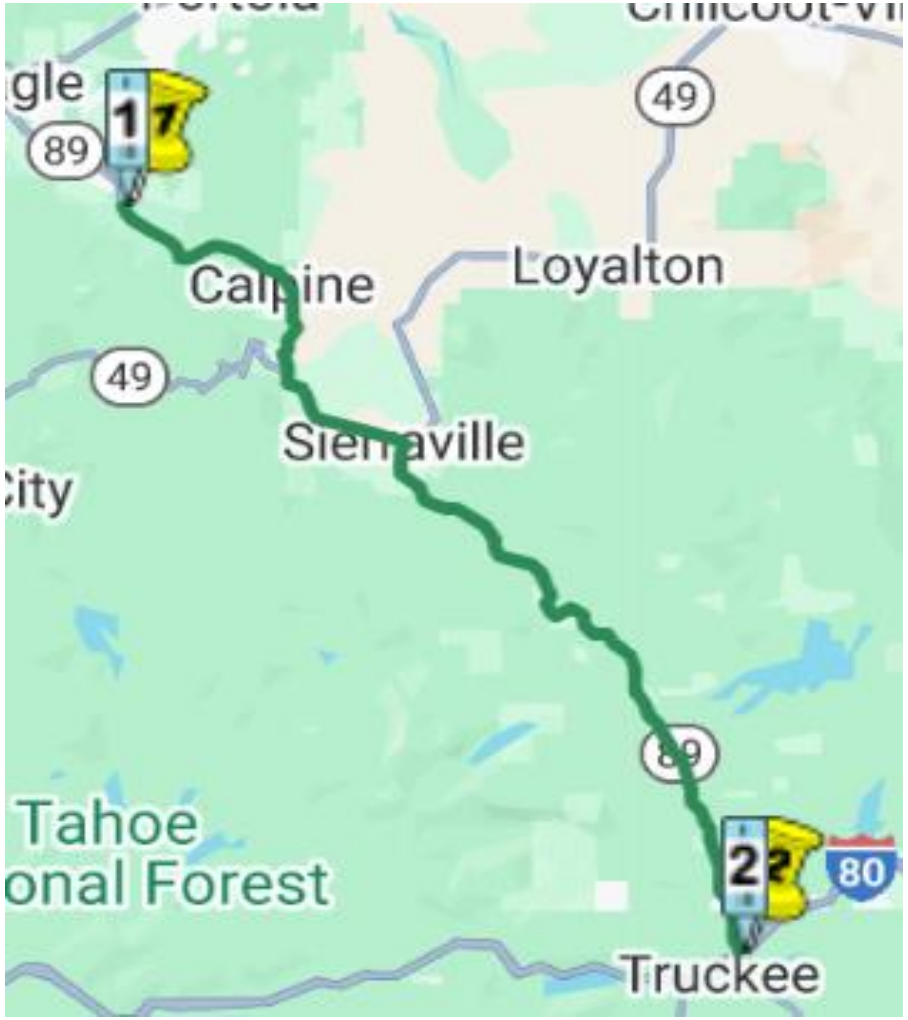
On State Route 89 between Tahoe City in Placer County and the “Y” in South Lake Tahoe in El Dorado County

April (weather permitting) – November in 2025 and 2026

This project will install high speed broadband along the west shore

One-way traffic control at multiple locations with delays up to 30 minutes

State Route 89
Middle Mile Broadband Network Project



On State Route 89 (north) from the Interstate 80 junction, through Nevada and Sierra counties to the Plumas County line

April (weather permitting) – November in 2025 and 2026

One-way traffic control at multiple locations with delays up to 30 minutes

Fanny Bridge Replacement
Tahoe City

This project will replace the aging Fanny Bridge over the Truckee River at Tahoe City along State Route 89 with a new, single span structure

Prep work scheduled to begin in June

Full closure is expected for a 12 week continuous duration beginning August 11

Traffic will be shifted over to Lake Boulevard bypass to State Route 28 and SR-89 north to Truckee

Transit center will remain open and accessible
